RESOLUTION

A Resolution Authorizing the City Manager to Execute a Contract with Greenway Engineering for Stormwater and Other Engineering Services

WHEREAS, in January 2019 the Charles Town City Council developed and adopted a consensus strategic planning document prioritizing investment in the city's aging infrastructure;

WHEREAS, included in this priority is the need for professional services to examine the city's stormwater management system, particularly in the older areas of town, to determine the existing capacity and make recommendations for improvements where needed;

WHEREAS, other engineering services are also needed to examine and design improvements for other aging or missing infrastructure throughout the city;

WHEREAS, the state process for selecting an engineering firm (or firms) requires a competitive selection process that begins with determining the qualifications of each firm and includes a contract with the selected firm(s); and

WHEREAS, the City of Charles Town completed this review process last year after advertising for engineering proposals, interviewing firms, identifying eligible firms, and negotiating pricing.

NOW, THEREFORE BE IT RESOLVED, the Charles Town City Council authorizes the city manager to negotiate and execute a task order contract with Greenway Engineering to provide stormwater and other engineering services for the city.

Adopted the 16th day of March, 2020.

Attest:

Robert M. Trainor
Mayor

Daryl Hennessy
City Manager/Clerk
